No. 112.—The following order of Government is published :—

G.O. No. 138, PUBLIC, DATED 19TH FEBRUARY 1926.

READ—the following paper :—

Letter from Maj.-Genl. J. PONSONBY, General Officer Commanding Madras District, to the Chief Secretary to Government, Public Department, dated Wellington, the 13th November 1925, No. 4375/13 A-3.

Madras Soldiers' Board.

I have the honour to bring the following matter to your notice :—

It has been represented that sometimes there is a lack of courtesy shown to retired Indian officers by subordinate civil officials.

The average Indian officer is loth to report cases of disrespect and moreover it is difficult in some cases to substantiate definite instances of a lack of the respect and courtesy to which the retired sirdar has been accustomed and therefore expects.

2. From enquiries made amongst retired Indian officers, the following appear to be their main grievances:—

(*a*) Their claims to be made honorary magistrates do not receive the favourable consideration which their service to the State, their characters and their experience of men and affairs, clearly entitle them. In some instances, the fact that they have an Army record, no matter how distinguished, appears to be a deterrent to their obtaining this much coveted distinction.

(*b*) The conduct of the chuprassis of civil officials when retired Indian officers seek interviews with them often leaves much to be desired.

(*c*) When they make enquiries about pensions, the postal officials in certain cases are discourteous.

(*d*) The Civil Police are apt to show a deliberate lack of respect in their dealings with them.

3. I am inclined to think that the majority of these complaints emanate from retired Indian officers of little standing in their villages who rose rapidly to commissioned rank and were demobilised at the end of the war, and that the old stamp of Indian officer with long service and of good social standing usually receives the courtesy due to his position. At the same time I am anxious to do anything I can to protect this worthy class from insult or discourtesy, which is undoubtedly hurtful to their feelings and apt to create an impression among them that the Government loses interest in them when it loses their services. I feel too that much of the discourtesy shown is due to ignorance, on the part of the person concerned, of the proper treatment to be given to Indian officers.

4. I am therefore writing to you to ask for your co-operation in this matter in the hope that you will be good enough to address civil departments concerned with a view to improving the treatment given to retired Indian officers. I should be extremely grateful for any assistance you can give in this respect.

Order:—A copy of the letter No. 4375/13 A–3, dated 13th November 1925, received from the General Officer Commanding Madras District is communicated to all Heads of Departments. They are requested to take measures to ensure that their subordinates treat retired Indian officers with the consideration and respect due to them.

Chief Secretary.

FINANCE DEPARTMENT.

Delhi, the 25th February 1926.

No. F.-12-VI-C.S.R./26.—In exercise of the powers conferred by Regulation 15 in Schedule IV to the Superior Civil Services (Revision of Pay and Pension) Rules, 1924, the Governor-General in Council is pleased to direct that the following shall be added as Regulation (9) at the end of Part I of the Supplementary Regulations published in Finance Department Notification No. F.-35-C.S.R./25, dated the 6th February 1925 :—

(9) An officer, who at the time of proceeding on leave declares his intention of retiring from service, is entitled to draw on the Passage Fund for single passages only. If, however, no such declaration is made but the officer draws on the Passage Fund for return passages whether for himself, for his wife or for his children and retires on the termination of leave, he should return the unused half of the return ticket or tickets which have not been utilised, to the Audit Officer concerned in India who will watch for the return of the unused halves of the return tickets, and obtain from the Steamship Company concerned a refund in respect of the return passage or passages. If, however, the return halves are actually utilised, the Audit Officer should realise from the officer concerned, the cost thereof. If in any such case the return half of the ticket or tickets is not utilised, it should be returned to the Audit Officer concerned in India. If the officer does not actually join duty, the entire cost of the return passage, or the cost of the journey to India only, according as the return half of the ticket or tickets is or is not used, will be recovered from him.

If, however, the second halves of the return tickets are actually utilised, the officer should make a declaration in due course to the Audit Officer that the tickets have actually been utilised.

No refund will be made by a Steamship Company under this rule except to the Audit Officer, who will make the necessary adjustment of the amount between the officer and the Government of the cost of the passage involved or any portion thereof has been borne by the officer.

Position of Indians in South Africa

(1)

TELEGRAM TO THE GOVERNOR-GENERAL OF THE UNION OF SOUTH AFRICA. No. 14-C., DATED THE 8TH APRIL 1925.

We have the honour to address you regarding position of Indian community in South Africa. During last four years it has frequently formed subject of representations on our part both in its general aspect and with reference to particular measures such as Durban and Natal Land Alienation Ordinances, Natal Rural Dealer's Licensing Ordinance, Class Areas Bill, and more recently Natal Boroughs and Township Ordinance. Last enactment though provincial in scope has given rise to feelings of profound apprehension in this country and, so far as we are aware, among Indian community throughout Union as to latter's future. Provisions of Mines and Works Act Amending Bill, which we understand has now been referred to a select committee of Union Assembly, and private Bill introduced by Mr. Collins, which was designed to restrict still further Indian trading rights in Transvaal but which we learn has now been withdrawn, have, in conjunction with avowed determination of a strong party in South Africa to curtail Indian civil and economic privileges as much as possible, deepened sentiments of uncertainty and alarm.

2. We think it will serve no useful purpose to attempt to analyse causes and consequence of present situation. We recognise that Your Excellency's Government are bound to take account of public opinion in South Africa and that at least in two provinces an important section of electorate is not friendly to Indians. We are also anxious not to aggravate a delicate situation by indulging in generalisations about aims and motives. The problems of South Africa, we believe, are probably racial only on surface. They rest on differences in history, outlook and civilisation of constituent elements of its population which penetrate deeper than colour of their skins. To solve these problems can be no easy task. All that we wish to urge is that a satisfactory and permanent solution can be possible only if leaders of races concerned will exercise to their utmost qualities of mutual understanding and forbearance. We are confident that such a solution is as anxiously desired by Your Excellency's Ministers no matter from what political party they may be drawn, as it is by Government and people of India.

3. Our interest in Indian question in South Africa requires no justification. In their minute No. 984, dated 15th December 1922, Ministers of Your Excellency's predecessor observed that they fully realised "the interest taken by Government of India in this question and their sense of responsibility for welfare of Indian population in those provinces where the law does not accord to it privilege of franchise." We take liberty to assume that this is also view of Your Excellency's present Ministers. For our part we are less anxious to lay stress on our responsibility than on our earnest desire to assist in finding a satisfactory and abiding solution of Indian problem. In aiming at this objective we are inspired by a larger ideal than mere protection of interest of Indians in South Africa. That ideal is maintenance of relations of cordiality and good will between India and South Africa. We trust that proposal which we now make will be received and considered in same spirit.

4. In our opinion an essential preliminary to formulation of a comprehensive Indian policy in South Africa which will be acceptable to more reasonable sections of all parties concerned is a conference in which representatives of Your Excellency's Government and of Government of India should participate. Unless opportunity is provided for a full, frank and personal discussion between accredited spokesmen of these two Governments requisite conditions for a ready understanding of divergent points of view and for prompt adjustment thereof in a spirit of compromise will not be established. Correspondence can never be an adequate substitute for personal discussion especially when both distance and psychological difficulties tend to delay a settlement. During his visit to South Africa last September Mr. Thomas, then His Majesty's Principal Secretary of State for Colonies, made an informal suggestion more or less to this effect in a speech which he delivered at Pietermaritzburg. It was also pressed upon us by a remarkably representative deputation consisting of members of Indian Legislature and prominent European businessmen and members of the Indian commercial community who waited upon His Excellency the Viceroy last January to draw attention to seriousness and urgency of this problem. We had hoped that Your Excellency's Government would take official cognisance of Mr. Thomas' suggestion. As they have not done so we now venture to take initiative and put it forward ourselves for their favourable consideration. We are not committed to any particular form or venue for this conference. We should prefer that it should be held in South Africa which is scene of action and where views of parties directly affected can most quickly be ascertained; but if for any reason Your Excellency's Government do not favour idea we shall be glad to invite your representatives to India or depute our delegates to any other convenient centre such as Geneva for purposes of discussion. Thus, during forthcoming session of Assembly of League of Nations representatives of two Governments could confidentially exchange views on this important question.

5. We do not propose at this stage to indicate in any detailed scope of these discussions. In our opinion economic and educational issues are of immediate practical importance and if Union Government consider that such a course would help in the acceptance of principle our suggestion we should be willing to consider desirability of excluding question of political equality from purview of proposed conversations. Educated opinion in India looks upon realisation of this ideal as a matter of vital national concern and our readiness not to raise this question for the present is an earnest of sincerity of our desire to arrive at a common basis of discussion. If none of these suggestions commend themselves to Your Excellency's Minister, we shall be glad to explore any other avenue that holds out prospects of a settlement which will ensure progress and contentment of Indian community in South Africa on a permanent footing and in a manner consistent with their national self-respect. We would repeat what we have already said that our main anxiety is to seek a settlement. We are not committed to any particular method.

6. There is one aspect of question on which we would like to dwell before we conclude. We understand that in replying to a deputation from the Natal Indian Congress which waited on your Government at Pretoria on 9th December in connexion with Natal Boroughs Ordinance the Prime Minister

stated that the constitution reserved the right to legislate on certain local matters to the provinces that Natal was acting entirely within its rights in the matter of this Ordinance, which had the support of the people and that it was hardly within the province of the Union Government to interfere with those rights unless it were prepared to substitute some other machinery to meet the wishes of the people. It would be presumptuous for us to question view of so high an authority on a point of domestic constitutional convention and we hope that our observations on subject will not be misunderstood. All that we wish to urge is that any piece of legislation that adversely affects existing Indian rights, even if its operation is to be strictly confined to boundaries of one province, has wider repercussions. It disturbs domiciled Indian community throughout Union, it agitates opinion all over India; it affects relations of two countries as a whole. We venture, therefore, to submit that such measures should be adjusted not in light of strict constitutional principles but in broader light of imperial and international considerations.

Telegram from the Governor-General, South Africa, dated the 15th June 1925.

Your telegram dated 8th April. My Ministers have asked me to convey to you their observations on proposed conference to discuss position of Indians in South Africa in following terms. In response to communication from Government of India Ministers wish to express their sincere appreciation of very friendly spirit which pervades that document and of sympathetic understanding of their peculiar difficulty and evident desire on part Government of India not in any way to complicate a delicate situation.

In connexion with reference in paragraph 3 of communication Ministers gladly endorse sentiment that it is only natural for Government of India to take an interest in welfare of Indians and generally in Indian questions in South Africa especially in view of possible effect of position in South Africa on disposition of people of India. They cannot therefore regard any representation and suggestion which Government of India may make otherwise than in a friendly light and as actuated by a sincere desire to promote welfare and contentment of Indians generally as well as good relations between their respective countries. Ministers further gladly recognise that although ultimate responsibility and decision in regard to South African problem rests with South Africa alone a friendly exchange of views between Government of India and South Africa on particular aspect of Indian question may lead to a better understanding of each other's standpoint and assist materially in its solution.

Such a conference as suggested in 4th paragraph of communication between representatives of Government of India and South Africa respectively has had most serious consideration of Ministers who feel however that difficulties surrounding this line of action are such that they find themselves unable to agree to it however much they would like to meet wishes of Government of India. Practically all parties in South Africa agree on broad principles that by strict prohibition of Indian immigration and by means of active repatriation that Indian population in South Africa shall be reduced as nearly as possible to irreducible minimum. For years this has actually been recognised and unchallenged policy of successive Governments whatever measure of success may have been which has attended their efforts. Under the circumstances it is evident to Ministers and they would desire to impress this on Government of India that feeling in South Africa in connexion with political, economic and social status of Indians bear a direct relation to and is almost entirely dependent upon effectiveness or otherwise of repatriation. In view of this it must further be evident that public opinion in South Africa will regard with gravest suspicion such a conference as suggested which does not explicitly open prospect of such a reduction of Indian population as will be considered satisfactory and will almost certainly look upon it as an interference from outside. If a satisfactory and effective process of repatriation could be initiated Ministers feel assured that alarm of European population will be so considerably allayed that public opinion will come to look much more favourably upon existing and future rights of Indians than has hitherto been the case. Any helpful suggestion which Government of India might, at any time, put forward in this respect will be cordially welcomed by Ministers.

(3)

Telegram to the Governor-General, South Africa, Cape Town, No. 403, dated the 14th July 1925.

We thank you for your telegram dated 16th June in which you communicate views of your Ministers on proposal for conference adumbrated in our telegram of 8th April. We deeply appreciate courteous and friendly tone of communication though we cannot disguise our profound disappointment at conclusion at which your Ministers have arrived. In view, however, of their apparent and earnest desire to grapple with Indian problem in a broad and sympathetic spirit and their invitation to us to offer suggestions on the question of repatriation, we venture to renew the suggestion in the hope that it may be reconsidered in the light of the observation set out below.

2. So far as we can gather the main objection to our proposal is that public opinion in South Africa will view with gravest suspicion and as an interference from outside any conference which does not explicitly open prospect of a reduction of Indian population by strict prohibition of immigration and active repatriation. So far as prohibition of immigration is concerned, Government of India acquiesced in principle in 1918 when right of each community to regulate composition of its population by means of suitable immigration laws was explicitly recognised and it was never our purpose to re-open that question. In regard to repatriation, we are quite willing to explore the question with your Government and indeed this is a subject which the Conference, we suggest, could usefully discuss. But as responsible opinion in South Africa recognises, repatriation by itself cannot provide effective solution of problem of European and Asiatic competition in economic sphere which is in the main responsible for present tension between two communities since nearly 63 per cent of resident Indian population was born in South Africa and the majority of that element regard that country as their home, and are hardly likely to return to India unless compelled to do so. If, as we are confident, your Ministers do not contemplate to make repatriation obligatory methods of improving present situation other than encouragement of resident Indians to return voluntarily to India will have to be explored. Thus the possibility of diverting Indians into channels of activity where they may not come into intimate or extensive competition with the European or of so regulating the conditions of employment as to render competition in spheres where it is unavoidable strictly equal and fair deserves careful investigation. It was with a view to assist in this task and work out a scheme which could be commended to both communities as offering basis for settlement safe and honourable to both communities that we asked for a conference. We venture to think that if the scope

of the proposed discussions were fully explained and it were made quite clear that they did not commit the Union Government to the acceptance of any agreement that may result from them without consultation with the South African Parliament and public the conference could probably meet without arousing misgiving or suspicion.

5. We are repeating the suggestion with a single-hearted desire to secure a speedy, complete and amicable solution of a problem which for years has been a progressive source of danger to the continuance of friendly relations between the two countries, and we earnestly hope that Your Excellency's Government will consider it in the same broad and friendly spirit.

Extension or reduction of class areas.

6. (1) Whenever, in the opinion of the urban local authority concerned, any area established under this Chapter as a class residential area or a class trading area, or a class residential and trading area proves inadequate or more than adequate for, or unsuitable either wholly or in part to, the requirements of the population of that class in the urban area, and the urban local authority deems it desirable to extend or reduce any such area or to alter the boundaries thereof, or to create a new class residential area or class trading area or class residential and trading area, the urban local authority may communicate its opinion to the Minister, who thereupon may take all such steps as he may take upon receipt of an intimation under section *one*.

(2) All and several the powers exercisable under this Chapter in respect of the establishment of a class residential area or a class trading area or a class residential and trading area shall be exercisable in respect of the creation of a new area or the extension or reduction of any existing area of like character or the alteration of the boundaries thereof.

(3) Nothing in this section contained shall be deemed to affect in any manner whatever any right to the renewal of a lease of immovable property where such right was held under a written lease existing at the commencement of this Act or any right to the grant to any person holding at the date mentioned in any proclamation issued in pursuance of this section any licence, permit, or other authority to carry on any trade or business which is actually being carried on, of a renewal of such licence, permit or other authority.

Suspension of provisions of Act.

7. (1) If at any time the Governor General is satisfied that a class residential area or a class trading area or a class residential and trading area established under this Chapter is inadequate for, or wholly or partly unsuitable to, the requirements of the population of that class in the urban area concerned, and that, by reason of the delay which would necessarily take place in removing the causes of the inadequacy or unsuitability, serious prejudice would be suffered by that population unless the provisions of this Chapter in respect of such inadequate or unsuitable area be suspended, he may, by proclamation in the *Gazette*, declare that, from and after a date to be therein mentioned, the provisions of this Chapter shall be suspended in respect of the class residential area or class trading area or class residential and trading area concerned.

(2) From and after such date the provisions of this Chapter shall in all respects cease to apply to the area deemed to be inadequate or unsuitable, and, in respect of such inadequate or unsuitable area, to the other parts of the urban area within which it is situated.

(3) The Governor General may, whenever he may deem fit, reproclaim as a class residential area or a class trading area or a class residential and trading area, as the case may be, any area which has been the subject of a suspending proclamation under sub-section (1) of this section, or proclaim as a class residential area or a class trading area or a class residential and trading area under this Chapter any area which wholly or partly includes any area which has been the subject of a suspending proclamation under sub-section (1) of this section.

Class advisory board.

9. (1) For every class residential area, or class trading area, or class residential and trading area established under this Chapter there shall be an advisory board consisting of not less than three persons of the class concerned resident within the urban area, in addition to a chairman who in the case of a non-European class area may be a European. The mode of election or selection of members of any such board, the period and conditions of office of members, and the procedure of the board shall be defined by regulations made by the urban local authority and approved by the Minister.

(2) It shall be the function of an advisory board established under this section to advise the urban local authority in respect of any matter referred to it by such authority for advice, and no by-laws or regulations particularly affecting the interests of the class of persons concerned shall be made or withdrawn by an urban local authority unless the advice of such advisory board shall first have been obtained in respect of the making or withdrawal, as the case may be, of such by-law or regulation.

Acquisition of immovable property by certain persons in Natal, except in class areas, prohibited.

10. (1) The Governor-General may by proclamation in the *Gazette* declare that from and after a date to be specified therein no member of any race indicated therein shall acquire immovable property or the lease or renewal of lease of immovable property in the Province of Natal save in the coast belt as provided in sub-section (2) of this section: Provided that nothing in this section contained shall be

deemed to prohibit a renewal of a lease of immovable property held under written lease at the commencement of this Act.

(2) A person who is a member of the race indicated in any proclamation issued under sub-section (1) of this section may acquire immovable property or the lease or renewal of lease of immovable property in the coast belt, from a person who is a member of the same race, but from no other person, except where the immovable property or the lease or renewal of lease of the immovable property acquired is within the limits of a class area established under this Chapter within the coast belt.

(3) From and after the date specified in any proclamation issued under sub-section (1) of this section, no member of any race indicated in such proclamation shall by testamentary disposition acquire any land or interest in land or the lease or occupation of any immovable property in the coast belt, except from a member of the same race.

(4) For the purpose of this section the coast belt means so much of the Province of Natal as lies between the coast line and a line to be defined by the Governor-General by proclamation in the *Gazette* corresponding as far as practicable with the coast line and drawn at an approximate distance of thirty miles therefrom.

(5) Nothing in this section contained shall be deemed to affect the operation within the coast belt of any other provision of this Chapter.

vings. 11. (1) Subject to the provisions of sub-section (3) of section *three*, section *eight* and sub-section (3) of section *ten* of this Chapter, nothing in this Chapter contained shall be deemed—

(*a*) to affect the operation of Law No. 3 of 1885 of the Transvaal or any amendment thereof; of section *two* of Act No. 18 of 1913; of Act No. 37 of 1919; of Chapter CXIII of the Orange Free State Law Book or any amendment thereof; or of any other Law prohibiting, restricting, regulating, or in any way affecting, the ownership or occupation of immovable property or trading by persons of non-European descent; or

emptions. 12. (1) The Governor-General may grant to any person a certificate exempting him either wholly or for such period as he may therein specify from all or any of the provisions of this Chapter; and such person shall either wholly or for such period, as the case may be, be so exempted.

(2) Nothing in this Chapter contained shall be deemed—

TELEGRAM TO THE GOVERNOR GENERAL OF SOUTH AFRICA, CAPE TOWN, NO. 522-Os., DATED THE 7TH SEPTEMBER 1925.

I thank you for your despatch No. 45-1362, dated 28th July 1925, forwarding copies of Areas Reservation and Immigration and Registration (Further Provision) Bill introduced into House of Assembly on 23rd July. I would be failing in my duty if I did not inform Your Excellency that my Government and I feel deep concern at the provisions of the Bill. We propose to address you at length on the subject when we have had an opportunity of examining fully all implications of the measure.

2. We have not yet received a reply to our telegram dated the 14th July repeating the proposal for a Conference to discuss position of Indians in South Africa. We should be glad to learn the views of your Government as soon as possible and trust that it may be possible for them to accept our suggestion.

(6)

TELEGRAM FROM THE GOVERNOR GENERAL, SOUTH AFRICA, PRETORIA, DATED THE 24TH SEPTEMBER 1925.

Your telegram dated 14th July. Indian question in South Africa. My Ministers very much regret their reply has been delayed so long. They wish, however, to assure the Government of India that this delay was due entirely to circumstances over which they had no control.

2. In the light of the views expressed in your telegram, my Ministers have very earnestly reconsidered their previous attitude with regard to holding of a conference on Indian question. They regret, however, that they cannot find sufficient reasons for departing from their views as conveyed in my telegram dated the 15th June. Being in close contact with the public feeling in South Africa and knowing as they do how holding of a conference on the Indian question without limiting the scope of such conference to some definite and concrete questions is likely to be looked upon and resented by the people here as an interference from outside. My Ministers are satisfied by deciding as they have, they merely give expression to great masses of responsible public opinion in the country.

3. My Ministers further wish to express their satisfaction and gratitude for readiness of Government of India to explore with them the possibility of more effective repatriation scheme which will result in a considerable reduction of Indian population in South Africa and which, if successful, is sure to facilitate enormously a generally acceptable and final solution of the general question of political, social and economic status of that residue which cannot be repatriated. In this connection my Ministers wish to point out that the extent to which repatriation is possible is not necessarily limited to number of Indians born overseas, as is evidently supposed by Government of India, as official figures show more than one-third of Indians hitherto voluntarily repatriated are South African born.

4. The question whether conversations between Government of India and Union Government with regard to repatriation shall be carried on through ordinary *channel* or at a conference as proposed must, in the views of my Ministers, depend upon the nature and practicability of any concrete proposals which during the preliminary discussions might tentatively and provisionally be brought forward. In order to give the Government of India some indications of the lines on which the Union Government have been thinking, my Ministers state that for a considerable time they have contemplated the possibility of supplementing the inducements now offered to voluntary repatriates by land settlement scheme in India or some adjacent territory together with such other provision for those who do not intend to settle on the land as may prove to be practicable. Such a scheme or schemes can naturally only be undertaken with the co-operation of the Government of India, which co-operation, together with further suggestions, will be heartily welcomed by my Ministers.

5. With regard to the points raised by the Government of India as to "the possibility of directing Indians into channels of activity where they may not come into intimate or extensive competition with the Europeans or of so regulating the conditions of employment as to render competition in spheres, where it is unavoidable, strictly equal and fair", my Ministers will gladly welcome any concrete suggestions which the Government of India might desire to make. They further wish to state that if further discussions about repatriation, as indicated above, might point the way to the holding of a conference definitely restricted in scope, they will raise no objection to the inclusion of this particular aspect of the question within the range of the conference.

(7)

TELEGRAM TO THE GOVERNOR GENERAL, SOUTH AFRICA, CAPE TOWN, NO. 600, DATED THE 8TH OCTOBER 1925.

Your telegram dated September 24th. Indian question in South Africa. We greatly regret the we have been unable to persuade Your Excellency's Ministers to agree to a conference, as we had hoped that the limitations on its scope suggested in our telegram of July 14th would have assisted them in acceding to our wishes.

Paragraph 2.—The Government of India are as ever ready to help the Union Government in finding a just and satisfactory solution of this difficult question, but they feel it only right to point out that a misunderstanding has arisen regarding the intention underlying the reference to repatriation in my telegram of July 14th. It was not our intention to suggest that we were willing to co-operate with Your Excellency's Ministers in exploring the possibility of more effective repatriation with the object of bringing about a considerable reduction in the Indian population in South Africa. All that we meant was that while repatriation would never by itself afford a solution of the problem, the existing scheme of repatriation on a purely voluntary basis might be re-examined with a view to ascertaining what difficulties had arisen in its working and how these difficulties could best be smoothed away. Conference of which the main object was to expedite Indian repatriation was not contemplated by us.

Paragraph 3.—Your Excellency's Ministers refer to the ultimate possibility of a conference regarding repatriation in certain circumstances, but the Government of India feel that they are not in a position to enter into a discussion of the repatriation question without fuller knowledge of local conditions than they at present possess. We note with satisfaction that your Excellency's Ministers would welcome any concrete suggestions which we have to offer either on this question or on the general question of mitigating direct competition between Europeans and Indians. We should be glad to avail ourselves of this offer, but feel that as a preliminary to entering into such a discussion, it is essential that we should be equipped with full and up-to-date knowledge of local conditions. We should therefore like, if your Government see no objection, to send a deputation to South Africa with instructions to collect information regarding the economic position of Indians and to investigate their general condition. We are anxious that this preliminary investigation should be completed as soon as possible in order that no avoidable delay may occur in arriving at a satisfactory conclusion. We trust that your Ministers will be able to accept this suggestion and hope that by this means we may be able to be of real assistance to them. As the object of our deputation would be to suggest an alternative solution of the Indian question to that embodied in the Areas Reservation and Immigration and Registration (Further Provision) Bill, we trust that your Government will have no objection to postponing further progress with that Bill until our considered suggestions are before them.

(8)

TELEGRAM TO HIS EXCELLENCY THE GOVERNOR GENERAL OF SOUTH AFRICA, CAPE TOWN, No. 609-Os., DATED THE 12TH OCTOBER 1925.

Reference Areas Reservation and Immigration and Registration (Further Provision) Bill, copies of which were received with Your Excellency's despatch No. 15-1263 of 28th July. We have carefully examined above Bill and, as foreshadowed in my telegram of 7th September, beg leave to make following observations on it:—

(1) According to statement made by Minister when introducing it, Bill assumes that Indian is an alien element in population of Union and is designed to reduce that element considerably. We question whether the Indian population, of which more than 60 per cent is South African by birth, can justly be regarded as alien element. Bulk of them have been settled in Union for long periods, have in their own respective spheres contributed to development of country, and proved their value to the other elements in the population. They have acquired vested interests and established manifold associations severance of which will be a source of distress to many and great economic dislocation and loss. As British subjects resident in South Africa they look, and, we submit, are entitled to look upon Union Government as the trustee of their interests equally with other elements in the population.

(2) *Chapter I.*—(a) As regards residential and commercial segregation Bill in the main reproduces provisions of the Class Areas Bill of the late Government. Our objections to the principle of racial segregation were set forth in paragraphs 7 to 9 of our despatch of August 23rd, 1923, and to the provisions of the Class Areas Bill in our telegram of March 14th, 1924, No. 257. In our opinion those objections have lost none of their force. Materially applications of these provisions will entail loss on Indian community by reducing value of immovable property now owned by Indians outside areas to be set apart for them and restrict their opportunity for trade. Socially Indian community will regard measure as inflicting humiliation, sense of which, we fear, will be aggravated by clause 12 of new Bill which excludes classes known as Cape Coloured and Cape Malays from its scope.

(*b*) Clause 10 is evidently based on recommendation made by majority of Asiatic Inquiry Commission but is wider and more drastic in that it is evidently intended to apply not only to agricultural land and purports to restrict the right of Asiatics to acquire immovable property within reserved belt from non-Asiatics, except within urban class areas set apart for them. To prohibit acquisition of agricultural land except from existing Indian holders would increase congestion in areas round Durban and at such places as Stanger where it is already so great that the Indian cultivator can hardly obtain a living from the small patch which he cultivates. As Indians in coast belt are largely descendants of agricultural labourers introduced some generations ago such prohibition will be a source of great hardship to them. In Minute No. 984 of your predecessor's Minister, dated 15th December 1922, we were informed that the recommendation of the Commission did not commend itself to them. We earnestly hope that in light of the consideration now put forward as well as those advanced in paragraph 6 of our despatch No. 307-R.A. of 19th—27th December 1921, your present advisers will consent even now to revise decision in matter.

(3) *Chapter II.*—(i) Clause 16 (*e*) of Bill will have effect of restricting further entry of Asiatics lawfully resident in other parts of Union into Natal and Cape of Good Hope. The reasons for proposing this provision are unknown to us, but we venture to point out that the restriction of freedom of inter-provincial movement must seriously affect vested interests. Again imposition of time-limit in respect of entry into Union of wives and children of lawfully resident Indians prescribed in (ii) of proviso to clause 17 is scarcely in consonance with terms of paragraph 3 of reciprocity resolution of 1918, which did not contemplate any such limitation and which representatives of South Africa accepted. In view of disparity between two sexes of resident population, it will inflict great hardship on unmarried Indians.

(ii) Sub-section (*e*) which clause 17 of Bill substitutes for present sub-section (*e*) of section 5 of Immigrants' Regulation Act (No. 22 of 1913) empowers Ministers to withdraw from Asiatics born of parents lawfully resident in any province of the Union, domicile that they have already acquired or may hereafter acquire in another province. Here, again, we fear that existing rights will be seriously prejudiced.

(4) *Chapter III.—Registration.*—We have no comments of principle to make in regard to provisions in this chapter.

(5) In our previous telegrams we have drawn attention to widespread apprehension which recent developments in regard to position of Asiatics in Union have created in India. Terms of new Bill, text of which has been published in newspapers, are regarded here as deliberately harsh and oppressive towards Indians. We have always pleaded with utmost earnestness for comprehensive consideration of Asiatic problem in broad and dispassionate spirit with a view to finding some solution acceptable to all communities in South Africa. In our opinion Bill will destroy hope of ever arriving at such solution and will have most harmful reaction on public opinion here. A conference on lines suggested in our telegrams of 8th April and 14th July would, in our opinion, have provided best opportunity for exploring situation, but we have learnt with regret from your telegram of 24th September that idea does not commend itself to your Ministers. We trust, however, that they will accede to request made in our telegram dated 9th October to send a deputation to South Africa to collect information regarding economic and general conditions of Indian community, so as to enable us to suggest solution of this difficult problem less unacceptable than that embodied in the Bill, and will also agree to postpone further progress of measure until our alternative proposals are before them.

(9)

Telegram from the Governor-General, South Africa, to Viceroy, Delhi, dated the 10th November 1925.

In reply to your telegram 9th October 1925, 606-Os., my Ministers state that they very much regret that Government of India find it impossible to co-operate with them in devising some more effective scheme of voluntary repatriation. They do so more especially because as they have previously pointed out there exists no better and surer means of favourably influencing the attitude of European population and thus of eventual furthering general interest of Indians in South Africa than the reduction of present Indian population to irreducible minimum. They feel that it is not necessary to add that any assistance which the Government of India might be able and willing to render to ensure the more effective working of existing repatriation arrangements will be heartily welcome.

(ii) Ministers have very carefully and sympathetically considered request to postpone their proposed legislation until the Government of India shall have taken certain steps as outlined in your last communication. If such postponement is to mean that Asiatic question will not be effectively and, if possible, finally dealt with during the forthcoming session of Parliament as seems likely to be the case, they very much regret that they will be unable to meet the wishes of the Government of India. In this connection they desire to point out that their proposed legislation is not only generally considered to be very urgent, but that it is also admittedly long overdue. Apart from the fact that present Government have publicly undertaken to introduce their Bill and have actually done so during the last session but were unable to pass it, similar legislation, as must be well known, was already attempted in the form of Class Areas Bill by my Minister's predecessors and would probably have been enacted by this time if dissolution of Parliament and a change of Government had not intervened. Furthermore my Ministers wish to point out that on broad lines the Areas Reservation and Immigration and Registration (Further Provision) Bill follow the recommendations of the Asiatic Enquiry Commission which reported as far back as March 1921 and that of these recommendations the Government of India cannot have been unaware nor were their views in this connection unrepresented as throughout that Commission of Enquiry they were officially represented by Sir Benjamin Robertson, late Chief Commissioner of the Central Provinces, India, accompanied by Mr. G. L. Corbett of Indian Civil Service.

(iii) With regard to the proposal to send a deputation to South Africa for the purpose of investigation my Ministers state that if Government of India consider this to be best and most desired method of obtaining such first-hand information as they require no objection will be raised by them against proposed course of action. Ministers naturally realise that under certain circumstances and without exercise of all due discretion it is possible that an enquiry of this nature may exercise a disturbing effect on the minds of Indian population in South Africa and may in the beginning increase the Union Government's difficulties and lead to profound irritation on the part of the European population but in spite of this they have sufficient confidence in good intention and discretion of the Government of India to concur in the action they desire.

(iv) With reference to the contents of your later telegram dated 12th October 1925, No. 609, my Ministers wish to assure the Government of India that their observation on various provisions of Areas Reservation and Immigration and Registration (Further Provision) Bill will have their fullest and most earnest consideration.

Telegram to the Governor-General of South Africa, No. 667-Os., dated the 13th November 1925.

Your telegram dated 10th November 1925. We are most grateful to Your Excellency's Government for agreeing to our sending deputation to South Africa to make certain enquiries. Deputation will consist of one senior British official of the Indian Civil Service and two prominent Indian non-officials who either have been or are members of the Indian Legislature, as members, one officer of the Indian Civil Service as Secretary and possibly one clerk. We shall communicate to you the names of the gentlemen composing the deputation as soon as they have been selected. Its defined purpose will be to inquire into and report to us on economic position and general condition of Indians in South Africa and Your Ministers may rest assured that we fully appreciate the importance of selecting representatives who will exercise due discretion in the conduct of such an enquiry.

2 We are trying to arrange that deputation should sail from Bombay per S.S. "Karagola" on 28th November. It is possible that special facilities in regard to its travelling and accommodation in South Africa may be required. We shall address you again on this point as soon as personnel of deputation is settled, and trust that Your Excellency's Government will be ready to assist us.

3 It was not our intention to suggest that no attempt should be made during the forthcoming session of the Union Parliament to deal with Indian problem. It would be sufficient if next stage in the progress of the Areas Reservation and Immigration and Registration (Further Provision) Bill could be postponed until we have had time to consider report of our deputation and make representations in light of that report. If, as we anticipate, deputation complete their work rapidly, we should be in a position to formulate our conclusions early in the New Year. If after consideration of our views Your Ministers decide to proceed with Bill, they would still, we believe, have sufficient time before end of session. We shall therefore be grateful if Your Ministers would agree to defer action relating to Bill for short time to enable us after receipt of

views and suggestions of deputation to submit representations for your consideration.

4. We thank you for assurance that remarks on the provisions of the Areas Reservation and Immigration and Registration (Further Provision) Bill communicated in our telegram No. 669 of the 12th October will receive fullest and most earnest consideration of Ministers.

TELEGRAM TO THE GOVERNOR-GENERAL, SOUTH AFRICA, NO. 703-OS., DATED DELHI, THE 26TH NOVEMBER 1925.

Please refer to my telegram of November 18th. Our deputation has now sailed, and we hope that they will complete their investigations and telegraph a summary of their conclusions to us five or six weeks after their arrival at Durban. In paragraph 4 of your telegram dated September 24th your Government expressed the opinion that the question whether conversations between Government of India and Union Government with regard to repatriation should be carried on through ordinary channels or at a conference must depend on the nature and practicability of any concrete proposals which during the preliminary discussions might tentatively and provisionally be brought forward. In sending our deputation, we have, as we explained in paragraph 3 of our telegram of October 9th, kept the possibility of a conference in view and have hopes that the proposals which we may be in position to put forward as result of deputation's report may form acceptable basis for conversations between Union Government and our representatives. We trust that Union Government on their part will not in meantime take any action that will preclude possibility of such conversations, if it is ultimately agreed that they are desirable.

TELEGRAM TO THE GOVERNOR-GENERAL, SOUTH AFRICA, PRETORIA, NO. 705, DATED THE 28TH NOVEMBER 1925.

Reference my telegram dated November 18th. Personnel of deputation, which sailed from Bombay for South Africa by S.S. "Cargola" on 25th November, is as follows :—

- G. F. Paddison, C.S.I., I.C.S., Commissioner of Labour, Madras—*Leader*.
- Hon'ble Syed Raza Ali, Member of Council of State—*Member*.
- G. S. Bajpai, C.B.E., I.C.S., Acting Deputy Secretary to the Government of India—*Secretary*.
- C. S. Ricketts—*Assistant*.

It is anticipated that the third and only remaining member of deputation, whose name will be communicated in a few days, will sail by boat leaving Bombay on December 6th. The deputation will then be complete.

2. Deputation will arrange its programme of work after reaching Durban and we would welcome any assistance that Your Excellency's Ministers and administrative officers may be able to give them in carrying out the duties entrusted to them. Deputation will probably have to travel extensively and as it is important that its report should be completed as quickly as possible, much of the work connected with preparation of report will probably have to be done in the train. We should, therefore, be grateful if your Government could see its way to placing a special saloon with kitchen, on payment if desired, at their disposal. This arrangement may be useful if difficulties arise up-country about accommodation in hotels. Where the deputation has to stop at any place for a number of days and cannot live in the train, we should appreciate any assistance that can be given them in securing suitable accommodation. Paddison is accompanied by his wife.

TELEGRAM TO THE GOVERNOR-GENERAL, SOUTH AFRICA, PRETORIA, NO. 713, DATED THE 1ST DECEMBER 1925.

He will sail for South Africa from Bombay per S.S. "Karapara" on 9th December arriving at Durban about the 30th December and is accompanied by his son.

TELEGRAM FROM THE GOVERNOR-GENERAL, SOUTH AFRICA, PRETORIA, DATED THE 9TH DECEMBER 1925.

Your telegram 18th November, 667-Os., and 28th November, 705. My Ministers have noted that the Government of India is sending a deputation to South Africa to enquire into and report upon (the) economic position and general condition of the Indians in South Africa and they appreciate the undertaking to select representatives who will exercise due discretion in the conduct (of) such an enquiry.

2. Union Government will grant without payment facilities for deputation in regard to its travelling in South Africa and will also render all possible assistance if difficulties arise in connection with accommodation in hotels. If suitable accommodation cannot be secured, arrangement will be made for saloon to be available for this purpose.

3. Ministers add that Areas Reservation and Registration and Immigration (Further Provision) Bill will be introduced early in forthcoming session which will begin on 22nd January next but that in ordinary course of Parliamentary procedure some time will necessarily elapse before second reading stage will be reached. This will probably give deputation as much time as they will require for their investigation. Government intend to move that after second reading Bill shall be referred to a select committee and will favour fullest opportunity being given to deputation laying case of Indians before that committee if it desires to do so.

(15)

TELEGRAM TO THE GOVERNOR-GENERAL OF SOUTH AFRICA, PRETORIA, NO. 743-OS., DATED THE 15TH DECEMBER 1925.

Your telegram dated 9th December. We are most grateful for courtesy of Your Excellency's Government in undertaking to grant without payment travelling facilities for our deputation and promising to render all possible assistance if difficulties arise in connection with accommodation in hotels.

2. We also desire to thank Your Excellency's Ministers for assurance that they will favour fullest opportunity being given to our deputation of laying case of Indians if so desired before Select Committee on Areas Reservation and Immigration and Registration (Further Provision) Bill. We will address you further on this point as soon as we have received report from our deputation and have considered their conclusions and recommendations. In the meantime we would be glad to be informed, as soon as Your Excellency's Government are in a position to do so, of date on which it is proposed to take second reading of Bill.

(16)

TELEGRAM TO THE GOVERNOR-GENERAL OF SOUTH AFRICA, DATED THE 10TH JANUARY 1926.

Our deputation after enquiry in Natal have telegraphed their interim and provisional conclusions and recommendations to us. Firstly, they have been unable to find any justification for the general opinion held by Europeans in Natal that Indian competition in trade is increasing and is closing fruitful avenue of employment to Europeans. Similarly, they are unable to obtain accurate or complete statistics to indicate how far, if at all, Indians have recently displaced Europeans in skilled or semi-skilled occupations. They suggest that a fresh survey of the situation, if one were undertaken, would probably prove fears to be unfounded, so far at least as trade and commerce are concerned. Their investigations tend to show that during the last few years Indian penetration has increased only in certain trades, such as tailoring and furniture, especially in Durban area, while in the sphere of business proper the Indian has not improved his position since the report of the Asiatic Enquiry Commission. Further expansion of Indian trade is barred by action of Municipalities, who refuse issue of any new licences to Indians, and frequently refuse transfer of old licences to new premises even in close proximity to old ones. Same policy is being followed by Licensing Boards in rural areas. For these reasons, they suggest that, in order to verify the facts on which demand for Bill is based, a fresh enquiry is advisable.

2. Secondly, our deputation lay stress on the point that it is questionable whether the Bill will effect any mitigation in the economic competition between the two races, which European opinion in Natal regards as crux of whole Asiatic problem. The positive remedies which Bill contemplated are—

(1) commercial separation,
(2) residential separation, and
(3) restriction provided for in clause 10.

As regards (1), our deputation find that municipal administration of existing licensing laws has already resulted in Indian traders being concentrated in areas distinct from those occupied by Europeans, except in the case of certain old established Indian firms which carry on business in European quarters. From European point of view, therefore, legislation now proposed appears unnecessary, while it will seriously aggravate position of Indian trading community. They assume that elimination of Indians from trade is not aimed at, as such a policy would not be in accordance with general standard of fairness, particularly since they report that aliens from Europe are monopolising new opportunities for trade. If object aimed at is mitigation of competition, other remedies seem more likely to be effective. Allegation of unfairness of Indian competition is said to be based on payment of lower wages to shop assistants and evasion of regulations governing terms of employment. They consider that means could be devised to prevent such evasion and are strongly of opinion that matter deserves investigation, especially as they have been told that if board and lodging and other amenities allowed free to Indian assistants are included, the total wages of the latter equal those paid for the same class of work by European employers.

3. With regard to (2) residential segregation, the enquiries of our deputation confirm the objections to this measure which we have consistently urged upon Your Excellency's Government. They report that condition of many locations occupied by Indians around South Africa causes Indian community to be full of apprehension that class area created for them will share similar fate. Any measure tending to depress the social and economic standards of Asiatics may be expected to intensify rather than to mitigate industrial and commercial competition between them and the white population.

4. Clause 10 of the Bill will, in the opinion of our deputation, have most serious consequences. They point out, firstly, that Indian market gardeners, who tend to cluster in every township in Natal and a large proportion of whom hold land on monthly and yearly tenure from Europeans, will be driven into coast belt where no fresh land is available for them as area within that belt owned by Indians is small and almost entirely taken up. Secondly, Indian market gardeners, who are now tenants of Europeans, will be deprived of their means of livelihood. Thirdly, Indian traders outside belt, who now carry on business in premises leased from Europeans, will be driven into belt on expiration of their lease. This will not only impose great hardship on Indians but many Europeans will suffer as well. Asiatic congestion around Durban which is already great will be seriously intensified. Sanitary conditions of Asiatic suburbs of Durban which are already regarded as a menace will become a greater source of danger to public health. Indians shut off from land will turn for a living to more or less skilled trades in which position of Europeans will be further threatened. It is stated by our deputation that Durban Corporation seems to be alive to sanitary danger of this provision of Bill and they add that Europeans with whom they have discussed the question have also begun to realise its probable effects.

5. These facts and considerations strengthen our conviction, which we have often pressed on Union Government, that a Round Table Conference would be most satisfactory method of dealing with the situation and we hope that, as result of discussion during the last few months and of wider appreciation of implication of Bill, there may have been some such modification in attitude of European public referred to in your telegram of September 24th as to justify your Government in reconsidering view they have taken of this proposal. We wish to make it clear that we are still willing and anxious to participate in a Round Table Conference in any place or manner which may seem to them most convenient.

6. If the Government of South Africa for any reason find themselves still unable to agree to a Round Table Conference, we hope that Union Government will agree that there is a *prima facie* case for some fresh enquiry before the proposed legislation is proceeded with. Apart from other considerations, the enquiry appears to be necessary, firstly, because exact facts regarding extent of Indian competition in trade and industry do not seem to be fully known and, secondly, because ultimate consequences of proposed legislation may be reverse of those which are expected and desired. Our deputation will we understand reach Cape Town on January 10th and we should be gratified if a Minister of the Government would consent to receive them informally and give them an opportunity of explaining and illustrating more fully the arguments in favour of holding an enquiry which we have only been able to indicate in brief outline. We believe that there is a great deal to be said in favour of allowing representatives of Indian community in South Africa and our representatives to place their views before a Committee of Enquiry before the Bill is proceeded with any further. The moral effect of holding the enquiry would be great. It would convince Indian opinion that Union Government were not averse to hearing representations which can be urged against policy embodied in Bill and that Parliament will not allow Indian case to be prejudiced in consequence of their not being represented politically.

(17)

TELEGRAM FROM THE GOVERNOR GENERAL OF SOUTH AFRICA, DATED THE 5TH (RECEIVED 6TH) FEBRUARY 1926

Your telegram dated 10th January, 8-Overseas. My Ministers desire me to thank Your Excellency very cordially for your courtesy in communicating to them so fully and promptly the interim and provisional conclusions and recommendations of Deputation sent to South Africa to enquire into position of Indian population in Union.

2. With regard to Your Excellency's suggestion that it might still be possible for Union Government to agree to the holding of a Round Table Conference, my Ministers fully appreciate desire and motive of Government of India in pressing for this particular method of dealing with problem. They wish me to state, however, that they have repeatedly given their most earnest and anxious consideration to the proposal but that for reasons already stated and in spite of their desire to meet the wishes of Your Excellency's Government, if possible, they cannot see their way to alter decision to which they have previously come.

3. With regard to observation in deputation report on general situation in South Africa and more particularly on probable effect of various (group omitted) on its proposed legislation my Ministers wish to point out that any conclusions to which deputation have come must necessarily and do admittedly rest on very fragmentary evidence gathered within a very limited period. They agree, therefore, in general conclusion that evidence must be supplemented before final and reasoned judgment shall be possible. They cannot, however, agree such further evidence must be collected by means of a fresh enquiry on the part of a commission appointed for purpose as this course seems to be unnecessary in view of similar and very exhaustive enquiry by Asiatic Enquiry Commission held only a few years ago and of information which can be made available from official sources. Besides a fresh enquiry as suggested will of necessity further delay legislation which is urgent and is already long overdue while on the other hand the Parliamentary Select Committee to which it is proposed to refer Bill will provide most suitable means and opportunity to supplement, as far as such may be required, any evidence which is already in hand.

4. Whilst on one hand my Ministers must regret their inability to accede to request of Government of India for a Round Table Conference or a fresh enquiry they on the other hand fully realize the anxiety of that Government to place as fully as possible the case of the Indian community in South Africa before the Government of the Union. It is for this reason that they previously adumbrated the possibility of evidence before a Parliamentary Select Committee by the deputation from the Government of India now in the country after Bill shall have passed the second reading. Although reference to a Select Committee after second reading will imply maintenance of the general principle of Bill it will at the same time offer a very wide scope for evidence and will not even exclude evidence on such a fundamental question in which Government of India is primarily concerned as to whether proposed segregation shall be voluntary or compulsory. To this suggestion which they have offered my Ministers have thus far received no reply and they are consequently in doubt as to the existence of any difficulty on the part of the Government of India in accepting the same. If such difficulty should, however, exist on the ground of too great a restriction of evidence which deputation might desire to bring forward my Ministers would agree to propose reference of Bill to a Select Committee before second reading thus widening scope for evidence so as to include principle of Bill. They wish it, however, to be understood that such a proposal on their part will be subject to Government of India intimating their willingness to availing themselves of this opportunity specially offered to place evidence before Select Committee through their deputation now in South Africa and further that it will be subject to Select Committee being required to report to Parlia- nt within such limited period as will enable liament to deal finally during the present session gislation proposed.

5. My Ministers have gladly acceded to the request of Your Excellency's Government that deputation who are now in Cape Town shall be received by one of Members of the Union Government. Intimation to this effect was sent to head of deputation immediately after the receipt of Your Excellency's last communication and proposed interview has already taken place.

(18)

TELEGRAM TO THE GOVERNOR-GENERAL OF SOUTH AFRICA, CAPE TOWN, No. 100-Os., DATED DELHI, THE 9TH FEBRUARY 1926.

We are in receipt of Your Excellency's telegram, dated the 5th February and would be grateful if you would be so good as to convey to Your Excellency's Ministers our warm appreciation of the courtesy and consideration they have extended to us and to our deputation.

2. While we cannot conceal from Your Excellency our deep disappointment that Your Excellency's Ministers have found it impossible to agree to either of the alternative methods put forward by us as best calculated to lead to a satisfactory solution of this problem we recognise that our proposals have been given the fullest and most anxious consideration. We further understand that the offer now made to us involves a departure from normal Parliamentary practice and procedure, and we see in this another proof of the desire of Your Excellency's Ministers to find a solution of this difficult question. My Government are in the circumstances prepare to accept, subject to the conditions stipulated in Your Excellency's telegram and to our observation in the succeeding paragraph, the offer made by Your Excellency's Ministers of an enquiry by a Parliamentary Select Committee before the second reading of the Bill. We note with satisfaction that terms of reference to the Committee will be sufficiently wide to include consideration of the principles of the Bill and we assume it is intention Your Excellency's Ministers also to allow representatives of Indian opinion in South Africa an opportunity of presenting their case to the Committee which we feel sure Your Excellency's Ministers will agree could not fail materially to assist the Committee in its task.

3. As Union Government are aware our objections to the Bill are fundamental and are against the principles on which the Bill is based. We propose therefore to instruct our Deputation to present the case before the Select Committee in respect of the general principles, although it necessarily follows from our arguments that we object also to the details of the Bill. We realise that Your Excellency's Ministers are anxious to avoid unnecessary delay but we trust in view of the very grave consequences for Indians which the proposed legislation must involve, fullest possible opportunity compatible with the limitation laid down in Your Excellency's telegram will be afforded for presentment of Indian case.

4 We are anxious that the offer made by Your Excellency's Ministers and our reply thereto should be published here with least possible delay and should be glad to know urgently by telegram when it is proposed to make these public in South Africa to enable us to arrange for publication here.

(19)

TELEGRAM FROM THE GOVERNOR-GENERAL OF SOUTH AFRICA, CAPE TOWN, DATED THE 12TH FEBRUARY 1926.

Your telegram dated 9th February, 105 Os My Ministers note with great pleasure and appreciation the readiness of Government of India to avail themselves of opportunity specially offered to them for presentment of Indian case through their deputation now in South Africa in accordance with the contents of my telegram dated the 5th February. With reference to observations in paragraphs 2 and 3 of Your Excellency's telegram and for further information of Government of India they desire to state that ample time will be given to proposed Select Committee to hear and consider evidence and that reference of Bill to a Select Committee before second reading implies that Indian community in South Africa will, through their representatives, have same opportunity and scope for presenting their case as will be accorded to deputation from India. With reference to last paragraph of your telegram I am informed by my Minister that they propose to lay on the table of House a copy of correspondence between the Government of India and Government of the Union with regard to the position of Indians in South Africa on Wednesday afternoon the seventeenth instant. The Honourable the Minister of the Interior will then make a statement in the House and give notice that he will move reference of Bill to a Select Committee before second reading. My Ministers submit that it will be suitable if publication referred to in your telegram could take place in India at the same time.

(G.O. Mis. No. 434, P.H.).

No. 268.—From the appended statement which shows the number of cases in which anti-rabic treatment was given in the Government Medical Institutions in the Presidency during 1923–24 and 1924–25 the Government observe that the number of patients who underwent the treatment in the General Hospital, Madras, and in some of the District Headquarters hospitals, notably Calicut, was very large. Considerable expenditure of public money on the purchase of vaccine, and on the maintenance of the patients concerned was thereby involved and in addition a large number of persons were subjected to anxiety and trouble which could have been avoided. That so many cases should require treatment is clearly due to the inadequacy of the steps which are being taken to destroy ownerless dogs. The Commissioner of the Corporation of Madras and all local bodies concerned are, therefore, requested to take immediate and effective action under section 251 of the Madras City Municipal Act, 1919, or section 154 of the Madras Local Boards Act, 1920, or section 241 of the Madras District Municipalities Act, 1920, as the case may be for the destruction of all stray dogs found within their respective jurisdictions.

3. The essay or thesis should be an original work done by the candidate. The candidate should investigate family budgets and working conditions of typical families and endeavour to throw light upon the recent history and prospects of the industry and of those engaged in it.

(ii) The economic conditions of a particular agricultural district, either with special reference to some agricultural problem of general importance (e.g., Fragmentation and Excessive Subdivision of Holdings) or with reference to some important local problem such as that of house-sites for Adi-Dravidas in the Tanjore delta, or the Advantages and Disadvantages of Marumakkattayam on the West Coast.

(iii) The economic conditions and problems of some particular caste or defined body of workers in either an urban or rural area, the object aimed at being an investigation similar to that of Mr. Arthur Davies into Anglo-Indian families in Madras, or that of Dr. Harold Mann into Untouchables in the villages near Poona.

Competitors are not excluded from the choice of other subjects but should select only such as are of sufficiently manageable dimensions as to permit of the production of essays and theses of possible value.

Competitors are warned that essays and theses which do not *either* contain new facts or new interpretations of previously known facts, *or* present such regroupings of facts and ideas as make clearer than before some point of economic interest will not be considered of merit sufficient to justify the prize.

6. All essays and theses for University prizes shall be forwarded to the Registrar by the prescribed date by registered post. No essay or thesis shall bear upon it the name of the competitor or anything whereby his identity can be ascertained by the persons to whom it is to be submitted for examination. Essays or thesis may be printed, type-written, lithographed or written (but not in the competitor's own hand).

The High Court has made the following amendments to the Appellate Side Rules, 1906, and publishes them for general information. They will come into force immediately :—

Chapter X.

1. In Rule 113, sub-rule (2), in both paragraphs "Part I" be substituted for "Part II".

2. In Rule 120, the following sub-rule be added as sub-rule (6) :—

"(6) Where in the course of the preparation of a record one party objects to the inclusion of a document on the ground that it is unnecessary or irrelevant, and the other party nevertheless insists upon its being included, the record as finally printed shall, with a view to the subsequent adjustment of the costs of and incidental to such document, indicate, in the index of papers, or otherwise, the fact that, and the party by whom, the inclusion of the document was objected to.'

3. Rule 121 as it stands be deleted and the following substituted in lieu thereof :—

"(1) The record shall be printed in the form known as demi quarto.

(2) The size of the paper used shall be such that the sheet, when folded and trimmed, will be 11 inches in height and 8½ inches in width.

(3) The type to be used in the text shall be pica type but long primer shall be used in printing accounts, tabular matter and notes. The number of lines in each page of pica type shall be 47 or thereabouts, and every tenth line shall be numbered in the margin.

(4) Records shall be arranged in two parts in the same volume, where practicable, viz.,

Part I.—The pleadings and proceedings, the transcript of the evidence of witnesses, the judgments, decrees, etc., of the Courts below, down to the order admitting the appeal.

Part II.—The exhibits and documents.

(5) The index to Part I shall be in chronological order, and shall be placed at the beginning of the volume.

The index to Part II shall follow the order of the exhibit mark, and shall be placed immediately after the index to Part I.

(6) Part I shall be arranged strictly in chronological order, i.e., in the same order as the index.

Part II shall be arranged in the most convenient way for the use of the Judicial Committee, as the circumstances of the cases require. The documents shall be printed as far as suitable in chronological order, mixing plaintiff's and defendant's documents together when necessary. Each document shall show its exhibit mark, and whether it is a plaintiff's or defendant's document (unless this is clear from the exhibit mark) and in all cases documents relating to the same matter, such as—

(*a*) a series of correspondence, or

(*b*) proceedings in a suit other than the one under appeal, shall be kept together. The order in the record of documents in Part II will probably be different from the order of the index and the proper page number of each document shall be inserted in the printed index.

The parties will be responsible for arranging the record in proper order for the Judicial Committee, and in difficult cases Counsel may be asked to settle it.

(7) The documents in Part I shall be numbered consecutively.

The documents in Part II shall not be numbered, apart from the exhibit mark.

(8) Each document shall have a heading which shall consist of the number or exhibit mark and the description of the document in the index without the date.

(9) Each document shall have a marginal note which shall be repeated on each page over which the document extends, viz.,

Part I.

(*a*) Where the case has been before more than one Court, the short name of the Court shall first appear. Where the case has been before only one Court, the name of the Court need not appear.

(*b*) The marginal note of the document shall then appear, consisting of the number and the description of the document in the index with the date except in the case of oral evidence.

(*c*) In the case of oral evidence, 'plaintiff's evidence' or 'defendant's evidence' shall appear beneath the name of the Court, and then the marginal note consisting of the number in the index and the witness' name, with 'examination,' 'cross-examination' or 're-examination', as the case may be.

Part II.

The word 'Exhibits' shall first appear.

The marginal note of the exhibit shall then appear, consisting of the exhibit mark and the description of the document in the index, with the date.

(10) The officer of the Court entrusted with the supervision of the preparation of the record shall, without unnecessary delay, call upon the pleaders of the parties, or the parties if they are unrepresented by pleaders, to prepare a list of exhibits and documents to be included in Part II arranging them in the order in which they are to be bound together or printed, as the case may be, within a specified period the length of which may vary according to the number and nature of the documents. If any party makes default, the list furnished by any other party may be accepted and, where all parties make default, the case may be posted for orders why the leave granted under order XLV, rule 8 of the Code of Civil Procedure should not be rescinded.

(11) If the parties are not agreed as to the order in which documents should be arranged in Part II and do not accept the suggestion, if any,

made by the officer supervising the preparation of the record, the matter shall be reported to the Court for orders

4. In Rule 123, 'Part II' be substituted for 'Part III'."

AUCTION FOR SUPPLY OF RATIONS AND MISCELLANEOUS ARTICLES TO THE CENTRAL JAIL, RAJAHMUNDRY.

NOTICE is hereby given that the Superintendent will hold an auction at the Central Jail, Rajahmundry, at 2 p.m. on Wednesday 31st March 1926 for the supply of the following articles of rations and miscellaneous articles during the year 1926 for a period of six months from 1st July to 31st December 1926. Intending bidders are requested to be punctual. In the case of suppliers who may be unable to attend the auction, sealed tenders will be accepted, provided they reach the Superintendent on or before the day and hour mentioned above and are accompanied by the earnest money specified in the schedule. Tenders, which will only be received on printed forms to be had free of cost on application, should be superscribed "Tender for the supply of rations and miscellaneous articles to the Central Jail, Rajahmundry." They will be opened at the time of auction and the offered rates considered along with the bids. The rates should be quoted in pounds and ounces per rupee for delivery at the Central Jail, Rajahmundry, the quantities being specified in words as well as in figures. Samples of the articles required can be seen at the auction. Suppliers may bid or tender for all or any one of the articles mentioned in the schedule on depositing the requisite earnest money. All supplies must be up to the samples accepted by them or approved by the Superintendent.

2. Successful bidders or tenderers will be required to enter into stamped agreements with the jail within seven days from the date of receipt of intimation by them that their rates have been accepted. In addition, they should, before signing such agreements, deposit a security of 10 per cent of the total value of the supplies undertaken (with approval of the Inspector-General of Prisons, the total amount may be reduced in the case of approved contractors). Failing compliance within the time specified, the earnest money may be confiscated, and in the event of withdrawal they will also be liable to pay any difference between the prices accepted and those ultimately obtained by the jail. The earnest-money received from successful bidders or tenderers will be taken towards their security deposits and those from others returned at the close of the auction.

3. The Superintendent reserves the right to accept or reject any bid or tender without assigning any reason.

4. Contract should not be sublet.

5. Any rates accepted and contracts entered into will be subject to confirmation by the Inspector-General of Prisons, Ootacamund, whose decision shall also be final in all questions of infringement.

6. As the quantities given against each article in the schedule are only approximate, contractors will be under an obligation to supply the entire requirements during the period of the contract, plus so much as may be needed to last for a whole month thereafter, provided, in respect of the extra quantities, that written orders are given within a fortnight of the termination of the agreement. At the same time, the Superintendent does not bind himself to receive the quantities or numbers noted in the schedule if they are not required.

7. No article is to be supplied to the jail except on a requisition signed by the Superintendent or some responsible person authorized by him in writing to do so 'by order'.

8. No advance of cash will on any account be made to the contractors when giving orders, nor will the jail pay freight or other charges on consignments to be afterwards deducted from bills, but payment for articles delivered at the jail on order will be made promptly after they have been inspected and passed. Contractors must submit to receive payment of their bills in whole rupees in the case of bills for Rs. 25 and over to which end annas forming part of the sum due on each bill will be disregarded, unless they constitute a fraction equivalent to half rupee or more, when they will be treated as a whole rupee for the purposes of the account, and the total of bills for less than Rs. 25 will be rounded off to the nearest anna, i.e., amounts below six pies will be disregarded and six pies and above will be taken as an anna.

9. Contractors are required (under a penalty not exceeding Rs. 25) to invariably send with each supply, a memorandum or advice note, duly signed, showing the number of quantity tendered for acceptance, also to sign and return within a week of payment by cheque, cash order or remittance transfer receipts, all connected bills forwarded by the Superintendent for the purpose. Questions in connexion with any supposed short payment may be referred to the Superintendent separately but are not to be made an excuse for delay or refusal to sign.

10. In addition to any difference in prices that may be recoverable from the contractors on account of purchase rendered necessary elsewhere by failure, neglect, or refusal on their part to supply according to the terms of their agreements, a fine not exceeding Rs. 50 may be levied at the discretion of the Superintendent for each and every such case of default. For repeated infringement of the stipulations of the contract or for other justifiable reasons, he may also annul it recovering all losses sustainable by the jail in consequence of the annulment, from the security deposited by the contractors, or other moneys due to them, and in the event of any residue, by legal measures, if so advised.

11. All wastage found to occur in excess of the respective percentages prescribed in the schedule will have to be made good by the contractors.

12. Further information on any point concerning this notification may be had from the jail office.

13. When once the rates offered at an auction or by tender have been accepted, lower quotations from others to the Superintendent or to the Inspector-General of Prisons will not be considered.

626. Read, approved and recorded the minutes of the proceedings of the previous meeting held on Friday, 19th February 1926.

627. Read again Resolution No. 159, dated the 19th June 1925, agreeing generally to a draft arrangement which the Government of India proposed should be come to between them and the several Port Trusts in India with regard to the extent to which vessels belonging to or in the service of Government and Government property of certain categories should be liable for the payment of dues and charges levied by the Port Trusts under their own Acts as well as under the Indian Ports Act and submitting for consideration certain suggestions made by the Deputy Port Conservator in regard to the draft arrangement.

Read Government of Madras Memorandum No. 809-1, Finance (Marine), dated the 15th January 1926, forwarding letter from the Government of India, No. 75-S, dated the 2nd January 1926, together with a revised draft arrangement prepared by them with a view to meet certain criticisms urged against the draft arrangement generally agreed to by the Trustees in their above-quoted Resolution and enquiring whether the Board agree to the revised draft arrangement. Read also note thereon by the Chairman.

Resolved that the revised draft arrangement now proposed by the Government of India be accepted.

628. Read again G.Os. Nos. 151 and 430, Finance (Marine), dated respectively the 20th March 1923 and the 13th July 1925.

Read also Resolution No. 508, dated the 16th December 1925, appointing a Committee to consider and report on certain proposals in connexion with the working of the Port and the Pilotage departments.

Read a note by the Chairman stating that the Committee are unanimously agreed as to the necessity for the appointment of an additional Harbour Master for the Port and requesting, for reasons given, that, pending the submission of the Committee's findings on the proposals submitted to them, sanction be accorded to the entertainment of an additional Harbour Master, thus increasing the number of Harbour Masters for the Port from four to five.

Resolved that Government be asked to sanction the proposed increase in the number of Harbour Masters for the Port.

629. Read and approved the Chairman's draft letter to Government submitting for sanction re-appropriation statements of expenditure under the Trust's Capital and Revenue Accounts during 1925–26.

630. Read again Resolution No. 334, dated the 25th September 1925, approving a draft of an agreement with the Madras Electric Supply Corporation, Limited, for the supply of alternating current to the Harbour subject to minor modifications which it might be possible to effect in the interests of the Trust.

Read a note by the Chairman submitting for approval the final draft of the agreement and stating that the final draft while embodying certain minor modifications, all in the interests of the Trust, provides for the contract for the supply being for a period of ten years instead of for five years as provided for in the draft already approved by the Board, but terminable by twelve months' notice after the expiration of seven years from date of commencement of contract.

Resolved that the final draft agreement now submitted by the Chairman be approved.

631. Read again Resolution No. 333, dated the 5th October 1923, raising the limit of expenditure on the harbour telephone system from Rs. 6,000 to Rs. 8,000 per annum with effect from 1st October 1923.

Read a note by the Chairman requesting, for reasons given, that the limit of the expenditure on the telephone system be raised to Rs. 10,000 per annum.

632. Read an application from Mr. F. W. Stocke, First Assistant Traffic Manager, supported by the Chairman, for the grant to him of an advance of Rs. 2,000 for the purchase of passages to and from England for himself and his two daughters on the analogy of similar concessions granted by Government to their gazetted servants of non-Asiatic domicile.

Resolved that Mr. Stocke be granted the advance applied for by him on terms similar to those laid down by Government for the grant of such concessions to their servants, Mr. Stocke being, however, allowed to submit on his return to Madras the receipt for the purchase of return passages instead of within three weeks from the date of his receipt of the advance.

633. Read a note by the Deputy Chief Engineer requesting the approval of the Board to the loan of the services of Mr. J. E. Burke, First Engineer and Dredging Master of the dredger "Madras" to the Deputy Harbour Engineer-in-Chief to Government from the 7th to the 16th February 1926, both days inclusive, on the terms mentioned in the Deputy Harbour Engineer-in-Chief's letter No. 276/26, dated the 6th February 1926.

Resolved that the Chairman's action in having authorized the loan of the services on the terms mentioned be approved and confirmed.

634. Read a note by the Deputy Chief Engineer recommending the grant to Mr. J. Freeman, lately charge hand in the Hydraulic Powerhouse, who has been medically certified as physically unfit for further service, of a gratuity amounting to Rs. 1,608, being at the rate of half a month's pay for each of his sixteen complete years of service.

Resolved that the grant of the gratuity be sanctioned.

635. Read again Resolution No. 429, dated the 19th December 1924, approving of the tender of

M.R.Ry. P. Sooriyanarayana Rao Nayudu, Contractor, for the supply of rations to the crew of the dredger "Madras" for a period of one year from 1st January 1925.

Read a note by the Deputy Chief Engineer stating that the Contractor's supply during the year 1925 has been entirely satisfactory and recommending that the contract be renewed for another year, i.e., up to the 31st December 1926 at the same rates as were previously paid to him.

Resolved to approve of the recommendation.

636. Read notes by the Executive Engineer and the Chairman recommending the payment from the Trust's funds to the Trust's Sanitary Inspector of a sum of Rs 55 being a portion of the expenses incurred by him for defending himself against a criminal prosecution instituted against him by a dismissed servant of the Trust for an offence alleged to have been committed by him and for his conducting a criminal prosecution of the dismissed servant for assaulting him while engaged in his official duty.

Resolved that a sum of Rs 55 be paid to the Sanitary Inspector subject to sanction of Government to the payment.

(*2*) Without prejudice to the foregoing provisions, such Local Government shall, by order in writing, revoke such a certificate of naturalization as aforesaid in any case in which it is satisfied that the person to whom the certificate was granted—

Provided that, in the case of a wife who was at birth a British subject, no such order as aforesaid shall be made unless the Local Government is satisfied that, if she had held a certificate of naturalization in her own right, the certificate could properly have been revoked under section 8, and the provisions of that section as to referring cases for inquiry shall apply to the making of any such order as they apply to the revocation of a certificate.

Declaration of alienage.

10. (*1*) A declaration of alienage in such manner as may be prescribed by rules made under this Act may be made,—

STATEMENT OF OBJECTS AND REASONS.

1. The object of this Bill is to continue certain provisions of the Indian Finance Act, 1925, which would otherwise cease to have effect from the 1st April 1926, to repeal the Cotton Duties Act, 1896, and to provide for the appropriation of the share of British India in the Dawes Annuities to the reduction or avoidance of debt.

2. Clauses 2, 4 and 6 provide for the continuance of the rates of salt duty, postage, income-tax and super-tax prescribed by the Indian Finance Act, 1925, while clause 5 provides for the credit to revenue for a further period of one year, i.e., till the 31st March 1927, of interest on securities forming part of the Paper Currency Reserve

3. Clause 3 repeals the Cotton Duties Act, 1896, and provides in the case of export by sea, for repayment of drawback of the duty paid as if the Act had remained in force.

4 Clause 7 provides for the balance of the share of British India in the annuities payable by Germany under the London Agreement of 1924 remaining after payment to private persons and local bodies as reparation for damage due to enemy action, being applied for reduction or avoidance of debt. The amounts are uncertain and fluctuating in character and represent recovery of expenditure that may be presumed to have been originally met out of borrowed funds and the capitalised value of certain pension payments.

BASIL P. BLACKETT.

The 1st March 1926.

The following Bill was introduced in the Legislative Assembly on the 1st March 1926:—

No. 33 OF 1926.

A Bill to provide for the regular submission of returns of quantities of cotton goods and cotton yarn produced in British India.

WHEREAS it is expedient, notwithstanding the repeal of the Cotton Duties Act, 1896, to provide for the regular submission of returns of the quantities of cotton goods and cotton yarn produced in British India; It is hereby enacted as follows:— II of 1896

Short title and extent. 1. (*1*) This Act may be called the Cotton Industry (Statistics) Act, 1926.

(*2*) It extends to the whole of British India.

Definitions. 2. For the purposes of this Act, unless there is anything repugnant in the subject or context,—

(*a*) "cotton goods" or "goods" includes all tissues and other articles (except yarn and thread woven, knitted or otherwise manufactured wholly or partly from cotton yarn);

(*b*) "cotton yarn" or "yarn" means yarn wholly or partly composed of cotton fibres;

(c) "mill" means any building or place where cotton goods are woven, knitted or otherwise manufactured, or where cotton yarn is spun, by machinery moved otherwise than by manual labour, and includes every part of such building or place;

(d) "owner", in relation to any mill, includes the managing agent or other principal officer of the mill;

(e) "prescribed" means prescribed by rules made under this Act; and

(f) goods shall be deemed to be produced when they are issued out of the premises of a mill, or, in the case of any mill in respect of which the Governor General in Council has so directed, when the goods are issued out of the weaving section or sections of the mill.

Delivery of monthly returns of goods produced by millowners.

3. (1) The owner of every mill shall each month prepare and deliver, or cause to be prepared and delivered, to the prescribed officer a return of all the cotton goods produced from or in, and of all cotton yarn spun in, the mill during the preceding month by machinery moved otherwise than by manual labour, and shall subscribe a declaration of the truth of the return at the foot thereof.

(2) Save as may be otherwise prescribed, every such return shall state, in respect of each description of goods and of yarn, the quantity produced during the period to which the return relates, and shall contain such further information, and be in such form and be subject to such conditions as to verification and otherwise, as may be prescribed.

(3) Every such return shall be delivered to the prescribed officer or posted to his address within seven days after the end of the month to which it relates.

Power to inspect mills and take copies of records.

4. (1) Any officer authorized by the Local Government by order in writing in this behalf shall have free access at all reasonable times during working hours to any mill and may at any time, with or without notice to the owner, examine and take copies of, or extracts from, the records of the mill for the purpose of testing the accuracy of any return made under section 3, or of informing himself as to any particulars regarding which information is required for the purposes of this Act or any rules made thereunder:

Provided that no officer not especially empowered by the Local Government in this behalf shall be entitled to inspect any record containing the description or formula of any trade process.

(2) All copies and extracts and all information acquired by any officer in the inspection of any mill under this section shall be treated as strictly confidential.

Publication of returns.

5. The Governor General in Council shall, from the returns delivered under section 3, cause to be compiled and published, in such form as he may direct, statements showing for each month the total production of goods and yarn in mills in British India.

Power to make rules.

6. (1) The Governor-General in Council may, by notification in the Gazette of India, make rules consistent with this Act to carry out the purposes thereof.

(2) In particular and without prejudice to the generality of the foregoing power, such rules may provide for all or any of the following matters, namely:—

(a) the form of any return required under this Act, the particulars to be contained therein, and the manner in which the return shall be verified;

(b) the nature of the records to be maintained by the owners of mills;

(c) the powers and duties, in regard to the inspection of mills under this Act, of the officers authorised to make such inspections; and

(d) any other matter which may be or is to be prescribed.

Penalties.

7. (1) Any person who—

(a) knowingly falsifies any record or book of production kept in a mill, or

(b) being required to deliver a return under section 3, knowingly delivers a false return, or

(c) omits to make any return required by section 3, or refuses to sign or complete the same, or

(d) knowingly does any act, not otherwise punishable under this Act, in contravention of the provisions of any rule made under this Act,

shall be punishable with fine which may extend to five hundred rupees.

(2) Any person who discloses any particulars or other information acquired by him in the inspection of any mill under this Act shall be punishable with fine which may extend to one thousand rupees:

Provided that nothing in this sub-section shall apply to the disclosure—

XLV of 18

(a) of any such particulars or information for the purpose of a prosecution under section 193 of the Indian Penal Code or under this Act, in respect of any return kept or record made for the purposes of this Act, or

(b) of any such particulars or information to any person acting in the execution of any duty imposed upon him by this Act, where the disclosure is necessary for the purposes of this Act.

Exemption.

8. The Governor General in Council may, by notification in the *Gazette of India*, exempt from the operation of this Act or of any specified provision thereof any mill or class of mills, or any goods or class of goods, specified in the notification.

Protection for acts done under this Act.

9. No suit or other legal proceeding shall be instituted against any person in respect of anything which is in good faith done or intended to be done under this Act.

STATEMENT OF OBJECTS AND REASONS.

The Cotton Duties Act, 1896, provides, in addition to the collection of the duty, for the submission of returns of the quantities of cotton goods produced in mills in British India. These statistics of production have been systematically compiled for the last 30 years, and have proved of great assistance in studying the development and vicissitudes of the industry.

2. It is proposed to repeal the Cotton Duties Act of 1896 by a clause in the Finance Bill, and unless the preparation and submission of these statistical returns are provided for by another Act, there will be a break in the continuity of these useful statistics.

3. The Bombay Millowners' Association have been consulted and are in favour of the continuance and preparation of these returns for quantities of yarn and cotton goods manufactured in India.

4. It is, therefore, proposed to render compulsory the preparation and submission of such returns by a Cotton Industry Statistics Bill. This Bill will be proceeded with *pari passu* with the Finance Bill.

The 27th January 1926.

C. A. INNES.

The following Bill was introduced in the Legislative Assembly on the 1st March 1926:—

No. 34 OF 1926.

A Bill further to amend the Indian Divorce Act.

IV of 1869. Whereas it is expedient further to amend the Indian Divorce Act, for the purpose hereinafter appearing; It is hereby enacted as follows:—

1. This Act may be called the Indian Divorce (Amendment) Act, 1926. Short title.

2. In section 2 of the Indian Divorce Act, for the words "except in the following cases—(*a*) where the marriage shall have been solemnized in India; or (*b*) where the adultery, rape or unnatural crime complained of shall have been committed in India, or (*c*) where the husband has" the following shall be substituted, namely:— Amendment of section 2, Act IV of 1869.

"except in cases where the parties to the marriage are domiciled in India at the time when the petition is presented, and—

(*a*) the marriage has been solemnized in India; or

(*b*) the adultery, rape or unnatural crime complained of has been committed in India; or

(*c*) the husband has".

STATEMENT OF OBJECTS AND REASONS.

The Indian Divorce Act purports to give power to certain Courts in British India to pass decrees of divorce *a vinculo matrimonii* in certain circumstances where the persons concerned profess the Christian religion and reside in India. The President of the Probate Divorce and Admiralty Division of the High Court of Justice in England in the case of Keyes *vs* Keyes and Gray held that this power did not extend to the granting of such decrees if the parties were not domiciled in India. By the Indian Divorce (Validity) Act, 1921 (11 and 12 Geo. 5, C. 18), decrees of divorce granted under the Indian Divorce Act and confirmed or made absolute under its provisions were validated even though the parties were at the time of the commencement of the proceedings domiciled in the United Kingdom if the proceedings had commenced before the passing of that Act. The question of the powers of the Courts in India to grant these decrees has, however, since been raised in various High Courts in India in the case of proceedings commenced after the passing of that Act, and the High Courts have held different views as to their powers to grant decrees of divorce *a vinculo matrimonii* between parties where the husband was admitted to be domiciled in England at the time when the proceedings commenced. The Lahore High Court, for example, in the case of Lee *vs.* Lee held that they had the power to pass such a decree which would be valid in British India, that is to say, the Courts in certain Provinces in India are still granting such decrees though it is clear that the decrees will not be recognized as valid by the Courts in England. The Bill proposes definitely to restrict the powers of the Courts in India to grant such decrees to cases in which the parties are domiciled in India at the commencement of the proceedings.

The 26th February 1926

The following Report of the Select Committee on the Bill to explain certain provisions of the Transfer of Property Act, 1882, was presented to the Legislative Assembly on the 4th March, 1926 :—

We, the undersigned, Members of the Select Committee to which the Bill to explain certain provisions of the Transfer of Property Act, 1882, was referred, have considered the Bill and have now the honour to submit this our Report, with the Bill as amended by us annexed thereto.

2. We have re-drafted the definition of attestation in such a manner that it now corresponds with the provisions of clause (c) of section 63 of the Indian Succession Act, 1925. Considerable discussion took place in regard to the advisability of retaining the provision requiring the attesting witnesses to sign in the presence of the executant. It was suggested that the inclusion of such a provision would perpetuate, though in a less aggravated form, the very evil which the Bill is designed to prevent. We are not, however, of opinion that a denial by an attesting witness of the presence of the testator at the time the witness signed the instrument is likely often to be made or, when falsely made, to be successful. At the same time, we think that the provision gives a real safeguard to an executant, and we are not aware of any precedent which would support its omission.

3. We have omitted as unnecessary the commencement and extent clauses of the Bill as introduced, and have made some purely drafting amendments in the inducement of clause 2.

4. The Bill was published in the Gazette of India, dated the 7th February, 1925.

5. We think that the Bill has not been so altered as to require re-publication, and we recommend that it be passed as now amended.

Bill No 11 of 1925.

[As amended by the Select Committee.]

[Words printed in italics indicate the amendments suggested by the Committee.]

A Bill to explain certain provisions of the Transfer of Property Act, 1882.

Whereas it is expedient to explain certain provisions of the Transfer of Property Act, 1882 ; It is hereby enacted as follows :—

IV of 1882

2. In section 3 of the *Transfer of Property Act, 1882*, after the definition of the word "*instrument*", the following shall be inserted, namely :—

"'attested', *in relation to an instrument, means attested* by two or more *witnesses* each of whom *has* seen the executant sign or affix his mark to the instrument, or *has* seen some other person sign the instrument in the presence and by the direction of the executant, or *has* received from the executant a personal acknowledgment of his signature or mark, or of the signature of such other person, and each of *whom has signed the instrument in the presence of the executant*; but it shall not be necessary that more than one *of such witnesses shall have been* present at the same time, and no particular form of attestation shall be necessary."

CULTIVATION STATEMENT—APRIL 1925 TO JANUARY 1926.

[On an average of the five years ending 1924–25, the area sown from April to January represents 98 per cent on dry lands and 94 per cent on wet lands.]

General.—During the month of January 1926, the weather was generally dry except in the last week when fairly good rain was received throughout the Presidency, except in the Circars, the greater part of the Deccan and the West Coast. The rainfall was particularly heavy in South Arcot, Tanjore and the Nilgiris. Water supply was generally sufficient except in parts of Bellary, Anantapur, the Central districts and the non-Periyar areas of Madura.

Transplantation or sowing of paddy was fairly general in East Godavari, the Carnatic, the Central districts, Madura and Ramnad. Ragi was sown or transplanted in Kurnool, the Carnatic, the Central districts and Ramnad. Other crops sown were cambu in Ramnad, horsegram in North Arcot and maize in Kistna and Guntur. Tobacco was transplanted in East Godavari and Kistna and sugarcane was planted in East Godavari.

2. *April to January—Sowings.*—Sowings up to the end of the month were generally satisfactory except in Coimbatore, Trichinopoly and Ramnad where they were somewhat restricted by want of timely rains.

(a) *Dry lands.*—The total area exceeded the average by 4 per cent, and was a little more than last year. The increase was mainly in East Godavari, Bellary, Anantapur, Cuddapah, North Arcot and Tinnevelly.

(b) *Wet lands.*—The total area exceeded the average and last year's figures by 5 and 2 per cent respectively. The increase was mainly in Ganjam, Vizagapatam and Chingleput.
